JOIN the FRIENDS OF NORTHERN LAKE CHAMPLAIN

Friends of Northern Lake Champlain is working to clean up the waters in the northern Lake by addressing the **land issues that are responsible for the pollution** that flows into the Lake. We are:

- * **Using** grants to demonstrate the effectiveness of winter cover crops and other field practices in reducing agricultural run-off.
- * **Collaborating** with Farmers Watershed Alliance to bring water quality issues to farmers and to the public.
- * **Driving** the state agencies to set priorities, to set targets, to be more productive, and to increase enforcement of current regulations.
- * **Working** with the media to get better public engagement. Without greater public support for a clean Lake, making progress will become increasingly difficult.
- * **And much more**

**Friends of Northern Lake Champlain needs your help to make it happen.
Please join today and send your membership dues to:**
